

## TLI50219 Diploma in Logistics

### Course Overview

A general qualification for the integrated management of logistics.

Successful completion will require the self-directed application of knowledge and skills, with substantial depth in some areas where judgement is required in planning and selecting appropriate equipment, services and techniques for self and others. Applications involve participation in the development of strategic initiatives as well as personal responsibility and autonomy in performing complex technical operations or organising others. It may include participation in teams, including those concerned with planning and evaluation functions. Group or team coordination may be involved.

Successful completion of the licensing units within the qualification must align with applicable licensing and regulatory requirements.
